

**Identification and Management of
Lower Extremity Arterial and Venous Disease:
The Essential Role of a Care TEAM**
A CME ROUNDTABLE ACTIVITY

This activity is jointly provided by Global Education Group and Educational Awareness Solutions.

Support for this activity has been secured through an educational grant from Philips Image Guided Therapy.

Target Audience

This CME-certified meeting series will be focused on providing primary care professionals (family physicians, internists, hospitalists, nurse practitioners, physician assistants, primary care allied health professionals, DPMs, and other healthcare providers) an educational opportunity to:

- Enhance their knowledge of vascular medicine
- Review challenging evidence-based patient cases
- Become familiar with tools and resources to educate their patients
- Better manage patients with peripheral arterial and venous disease

Statement of Need/Program Overview

Vascular diseases, including peripheral arterial disease (PAD) and venous thromboembolism are prevalent in the US. When unrecognized or inadequately treated, these disorders may be life threatening and disabling.

The therapeutic and diagnostic landscape for vascular conditions is rapidly evolving; yet there remains an unmet need for more awareness among healthcare professionals and patients.

This presents an opportunity for new education efforts geared to healthcare providers, particularly those on the front line (eg, primary care physicians, primary care allied health professionals and DPMs).

Educational Objectives

After completing this activity, the participant should be better able to:

- Identify patients at risk for critical limb ischemia, peripheral arterial and venous disease via evidence-based guidelines and standard non-invasive examination techniques.
- Describe the management options available for peripheral vascular diseases.
- Describe management and referral strategies to identify patients with peripheral vascular disease.
- Construct referral plans to imaging centers for patients with PVD.

Core Faculty

Mark L. Lessne, MD, FSIR

Interventional Radiologist

Charlotte Radiology

Adjunct Assistant Professor of Radiology and Radiological Sciences

Johns Hopkins Medical Institute

Eric A. Secemsky, MD, MSc, RPVI, FACC, FAHA, FSCAI, FSVM

Director | Vascular Intervention | Beth Israel Deaconess Medical Center

Section Head | Interventional Cardiology and Vascular Research | Richard A. and Susan F. Smith

Center for Outcomes Research in Cardiology | Beth Israel Deaconess Medical Center

Associate Professor of Medicine | Harvard Medical School

Mathew Wooster MD, MBA RPVI FSVS FACS

Associate Professor of Surgery

Director of Aortic Surgery

Division of Vascular Surgery

Medical University of South Carolina

Program Agenda

- Background: The Epidemic of the Diseases
- Peripheral Arterial Disease: Presentation & Importance of Early Detection / Intervention
- Venous Disease - Acute DVT
- Chronic Venous Disease
- Multidisciplinary Approach - Achieving Better Outcomes

Physician Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Global Education Group (Global) and Educational Awareness Solutions. Global is accredited by the ACCME to provide continuing medical education for physicians.

Physician Credit Designation

Global Education Group designates this live activity for a maximum of 1.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity

Global Contact Information

For more information about the accreditation of this program, please contact Global Education Group at (303) 395-1782 or email cme@globaleducationgroup.com.

Fee Information

There is no fee for this educational activity.

Instructions to Receive Credit

In order to receive credit, participants must attend the CME Roundtable activity and complete the pretest, posttest, and evaluation form. An individualized posttest/evaluation link will be emailed to each participant within 72 business hours from outcomes@globaleducationgroup.com with the subject line “CME/CE WebSurvey link”. Once the posttest and evaluation questions are completed, participants will be able to download their CME/CE certificate.

Disclosures of Relevant Financial Relationships

Global Education Group (Global) adheres to the policies and guidelines, including the Standards for Integrity and Independence in Accredited CE, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME) and all other professional organizations, as applicable, stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous. All persons in a position to control the content of an accredited continuing education program provided by Global are required to disclose all financial relationships with any ineligible company within the past 24 months to Global. All financial relationships reported are identified as relevant and mitigated by Global in accordance with the Standards for Integrity and Independence in Accredited CE in advance of delivery of the activity to learners. The content of this activity was vetted by Global to assure objectivity and that the activity is free of commercial bias.

All relevant financial relationships have been mitigated.

The **planners and managers** at Global Education Group and Educational Awareness Solutions have no relevant financial relationships with ineligible companies to disclose.

The **core faculty** have the following relevant financial relationships with ineligible companies:

Mark Lessne, MD, FSIR

Speakers' Bureau: Terumo Medical, Philips Image Guided Therapy, BD/Bard, Baylis Medical Technologies, Cook Medical

Research: Merit (PI WAVE Trial)—closed, BD/Bard (ARCH Liverty TIPS Trial)

Consultant/Clinical Advisory Board: Terumo Medical (Venous), BD/Bard (ESRD, PAD), Philips Image Guided Therapy (Venous), Inari Medical, Baylis Medical Technologies

Stocks: Inari Medical

Eric A. Secemsky, MD, MSc, RPVI, FACC, FAHA, FSCAI, FSVM

Consulting: Abbott/CSI, BD, BMS, Boston Scientific, Cagent, Conavi, Cook, Cordis, Endovascular Engineering, Gore, InfraRedx, Medtronic, Philips, RapidAI, Rampart, Shockwave, Siemens, Terumo, Thrombolex, VentureMed, Zoll

Mathew Wooster MD, MBA RPVI FSVS FACS

Honoraria: Penumbra, Shockwave, Philips, Gore, Cook, Medtronic

Speaker's Bureau: Penumbra, Shockwave, Philips, Gore, Cook, Medtronic

Americans with Disabilities Act Event staff will be happy to assist you with any special needs. Please contact **Cindy Miller** at **203-604-1856** or email **cindy@cmeroundtable.com** with any requests prior to the event.

Disclosure of Unlabeled Use

This educational activity may contain discussion of published and/or investigational uses of agents that are not indicated by the FDA. Global Education Group (Global) and Educational Awareness Solutions do not recommend the use of any agent outside of the labeled indications.

The opinions expressed in the educational activity are those of the faculty and do not necessarily represent the views of any organization associated with this activity. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications, and warnings.

Disclaimer

Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed in this activity should not be used by clinicians without evaluation of patient conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities.
